## Memberlist

Posted by Dbzman - 2007/04/21 15:31

---

Hi :),

I think a Memberlist is just missing. I don't see it anyway.  
Hope you integrate it to the next release.

Hi,

yes an own Memberlist without CB(e) where wonderful.

Not all User want to install CB(e) to have an Memberlist and Profil List.

---

---

Not a bad idea for those who aren't interested in Community Builder integration.

---

## Re:Memberlist

---

I'd agree there, we don't use CB, & that would make a good addition to what is a good forum

---

## Re:Memberlist

Yeah, it would also be nice (if this is necessary) to make some kind of transfer from cb to fb, so people can uninstall cb without losing their users and their info?

---

---

Cool, greatpixels! Congrats!

:woohoo:

I would suggest a little enhancement: it would be great to add a "Group" column to display the membership type (Core Team, Support Team, Documentation Team etc.). It would be also interesting to log the views of the profiles and display them in this tabel.

Hi, looks nice. Good Job.

Where is Beta 1.0.1?:laugh: :kiss:

Wow this looks really nice!! Is it possible to move from CB to this memberslist (without losing avatar and info??)

=====

## Re:Memberlist

Posted by greatpixels - 2007/04/23 12:54

---

yes. cb avatar included already. :)

Okay. What about turning those groups into forum-based permissions groups that can be assigned to forum categories and sub-categories to enable viewing, posting and administration? Then, the abilities would essentially mirror SMF's ability in this department. Thanks.
