Seems great! compatible 1.0.1 right?

I was wondering I feel stupid but I saw there is an attached file ( I see the icon from the board view), but I don't see the file to download here ;- ) where is it?

ok probably the icon is to say that there are pictures attached, but you actually did not publish any final release is that correct?

=====

Hi, all

Can soemone tell me when is this POLL option is going to be available.

Best regards.

Mario

Actually, they're including it on the next version, the v1.0.2! And I'm getting very excited to use it! :kiss:

Hello,

any news about the poll? I can't find it on the new Roadmap :unsure:

---

## Re:Fireboard Poll Plugin

Posted by maceved23 - 2007/08/24 03:16

HI all

I want to know what happen with this poll issue. I'm verry exited waiting for it.

Can someone let me know what happen about it.

Best Regards

Mario

## Re:Fireboard Poll Plugin

Posted by astrod00d - 2007/08/24 16:40

As hacksider pointed out, the poll feature will be included in the 1.0.2 release. The roadmap shows that 1.0.2 will be released in August and since there is only one week left in August, the answer to your question is within the next week.

This is, of course, if the dev team is able to complete it by then. There's always the possibility that it could be pushed back. I'm pretty excited about it and have been checking the forum everyday for the last month or so waiting on the release. The main feature I'm waiting on is the poll. If for some reason, they have to push back the release again, we must remind ourselves that this software is free to use and is developed during donated time and effort by the dev team.

I, too, would like just a little update on this :) The tease they gave us of the poll was sweet for sure!

I know they'll release it when it's ready but the anticipation is about to drive me nuts!! I'm VERY thankful for fireboard and the fact that it's free and I love the fact that they are always constantly trying to make it better.

Kudos to the developers for sure!

---

## Re:Fireboard Poll Plugin

Posted by dartagnan32 - 2007/09/03 21:30

---

Yeah hope it will be available for 1.0.3 stable! Let's see in 2 days...

---

## Re:Fireboard Poll Plugin

Posted by roland76 - 2007/09/04 09:41

---

I don't think so, because the plugin isn't integrated in the SVN... :(

---

## Re:Fireboard Poll Plugin

Posted by dartagnan32 - 2007/09/04 23:05

---

Then maybe as a separate plugin?

It seemed wel advanced considering the screenshots, Hope to hear from the creator who posted the screenshots soon! ;)

---

can anybody post the code? it's not in 1.0.3

---

## Re:Fireboard Poll Plugin

Posted by dartagnan32 - 2007/09/06 22:40

Yes above they said it would be included in next release but it isn't. Well we've got a beautiful 1.0.3 anyway. Just hope they rapidly propose us a plugin poll cause I am not sure when will be the 1.0.4 or 1.1...  
thanks

---

## Re:Fireboard Poll Plugin

Posted by fermin - 2007/09/07 12:24

I was also very much looking forward to this feature. Is the code really not available, yet? I'd beta test ...

---

## Re:Fireboard Poll Plugin

Posted by maceved23 - 2007/09/07 16:35

HI ALL

:(

I see that I'm not the only one who was specting the new issue in first step for the poll.

I also downloaded it and install it and NO POLL :unsure:

What was the problem ?? The code failled ?? The developpers forgot to include it ???

Can someone tell me any news regsrdng this issue.

Mario

## Re:Fireboard Poll Plugin

Posted by astrod00d - 2007/09/08 06:59

This is very disappointing indeed. I was very excited about this feature after danialt said that it would be in the release.

---

## Re:Fireboard Poll Plugin

Posted by fermin - 2007/09/14 12:37

Maybe it's time we start developing this ourselves. I can contribute SQL knowledge. I'm a dba/itp, even with certifications. ok, not mysql, but I don't think there are that many differences between ms sql and mysql. And then there's google ;-). Seriously, I've done some work with mysql in the past, so that end should be covered.

What I'm most definitely not is a web designer. Don't plan to be, not because it wouldn't probably be fun, but because I

---

lack the flair to come up with good design ideas.

So if somebody "paints" the whole thing and tells me what functions are needed to fill the "painting" with what kind of data, we can give it a shot. And who knows, if it's pretty and not too bad a hack, it might even be in 1.0.4 - either as core functionality, or as plugin. I'm happy with taking some of the load off the development team if I can help.

(my god ... me, open source. if bill could see me ;-) )

---

we know fireboard can make better next time as they do for fireboard before and first plz give support for they who make for free

btw 1.0.3 have many bugs bro and make some member confused  
:woohoo:

pisdokter, is there any information you can give us on what happened to the poll feature? Wasn't it in one of the release candidates? Any information from any of the dev team would be appreciated.

Dear Friends,

I know you forget about it, but I was the 1st dev who started the development of FB-Poll system.  
[http://www.bestofjoomla.com/component/option,com\\_fireboard/Itemid,38/func,view/catid,68/id,6845/](http://www.bestofjoomla.com/component/option,com_fireboard/Itemid,38/func,view/catid,68/id,6845/)

After 'he' started the Poll-System on a different approach, I stopped mine.  
But, after so long, he couldn't publish the code.  
In his approach, 'POLL is like a NEW THREAD', in my system 'POLL is a ADD-ON to Main POST'.

I had completed the coding 90%.

I had to make just one last FORM (this one) and the integration.

If you really interested to have Poll system on next version 1.0.14, please help me to make just one Form, This -  
[http://www.bestofjoomla.com/component/option,com\\_fireboard/Itemid,38/func,view/catid,68/id,6845/](http://www.bestofjoomla.com/component/option,com_fireboard/Itemid,38/func,view/catid,68/id,6845/)

JOIN ME.

Sorry, I'm no good at designing forms. On the other hand, if you'd like someone reviewing the sql bits, or help development in a later version, ask me.

---

## Re:Fireboard Poll Plugin

Thats why I stopped the project.... everyone want to have it, but no one to contribute :angry:

URGENT Small QUERY

I need a help in PHP-coding on Fireboard. I am modifying the Editor php file.

When I am in the Editor Window of Fireboard, how to know, what the editor is for -

To create new thread ? (I need it)

-or-

To Reply a post ?

-or-

To Edit a post ?

-or-

To Reply-with-Quote a post ?
