
[SOLVED] Locked topic message confusing to users

Posted by kenmcd - 2007/07/28 18:47

.

When trying to reply to the Fireboard 1.0.2 RC1 thread, I received the following message:

The administrator has disabled public write access.

Only logged in / registered users
are allowed to contribute to the forum.

I am a registered user and logged-in.

How about this text?

This thread is locked.

No reply posts are possible.

Or something similar.

.

.

I know this involves a new check to see if the User is is fact a Registered User.

Thanks for all your hard work!

.
