
Joomla 1.5 Forum Administration

Posted by BLaCKie_MoRGaN - 2007/07/31 09:13

Found a bug in forum administration in joomla 1.5 (haven;t tested it in 1.0.13)

the bug was actually a field name change ocured in file admin.fireboard.php in line 371

```
$database->setQuery("SELECT a.*, a.name AS category, u.name AS editor, g.name AS groupname, h.name AS
admingroup" . "\nFROM #__fb_categories AS a"
/*      . "\nLEFT JOIN #__fb_categories AS b ON b.id = a.parent"*/
. "\nLEFT JOIN #__users AS u ON u.id = a.checked_out"
. "\nLEFT JOIN #__core_acl_aro_groups AS g ON g.id = a.pub_access" . "\nLEFT JOIN
#__core_acl_aro_groups AS h ON h.id = a.admin_access" . "\n GROUP BY a.id" . "\n ORDER BY a.ordering, a.name");
```

The changed text was g.group_id(now g.id) and h.group_id(now h.id)
