
Fireboard How To PODCAST

Posted by palebluedot - 2007/08/04 06:27

Hey, just to let everyone know, I've signed up for a podshow.com account to host my Template tutorials and future tutorials I hope to make once 1.02b is finalized.

iTunes Users can click here:

<http://phobos.apple.com/WebObjects/MZStore.woa/wa/viewPodcast?id=261272104>

or search for "Fireboard How To" in the iTunes Store (this is a free podcast).

If you don't have iTunes and don't want to get it, you can view all the podcasts in QuickTime format here:

http://www.podshow.com/shows/?show_id=14217&mode=current

I welcome anyone to submit material for this podcast. Tutorials can be video or audio based, whatever is easiest for you.

Update: Aug 8, 07

<http://img388.imageshack.us/img388/3894/iconay5.jpg>

I just added a quick tutorial on how to customize your icons to better fit customized templates with Photoshop. Hopefully people will find it useful.
