
Modify Subscribe and Favoured redirections

Posted by LocaliceR - 2007/08/18 11:27

When I subscribe a topic, I am redirected to My Profile. The same happens when I add a topic to my favourites. I would be happier if I were taken back to the topic. The replaced button marks that I am subscribed or added the topic to the favourites.

I Need this also.

Anybody come a coss a fix for this?
