Hi Guys...

The problem is about bad word filter.

I turn on bad word filter and i choose a subject from forum then an error comes to the page.

The Error:

Warning: main(components/com\_badword/class.badword.php) : failed to open stream: No such file or directory in /home/bilgicag/public\_html/components/com\_fireboard/template/default/view.php on line 31

Fatal error: main() : Failed opening required 'components/com\_badword/class.badword.php' (include\_path=.:usr/lib/php:usr/local/lib/php) in /home/bilgicag/public\_html/components/com\_fireboard/template/default/view.php on line 31

either disable the bad word filtering feature of fireboard, or download the bad word component for joomla and install it..

here is that link for that component
