
using FB in another template..

Posted by kellykamay - 2007/09/02 19:44

Ok here is my scenario..i want to use a different template for my FB

i already created a second template and assigned that to my Forum menu item..it works perfectly..except when u click a topic in recent post..it will bring u back to the main template..

so how am i goin to solve this..pls help

thanks
