
text labels in compose message are white

Posted by fire - 2007/09/03 06:09

Hi there, on my site,

http://eslteacherlink.com/live/joomlasl/index.php?option=com_fireboard&Itemid=2&func=view&id=5&catid=9

when I reply or post a message, all of my text labels appear to be white against a white background, any ideas on where I need to fix this?

Please help! Thanks!

I saw your problem at first I thought the problem might be from another style sheet and over riding the labels. But I quickly tested by disabling the all the style sheets but the fireboard one and I was wrong. The problem is somewhere in the fireboard style sheet, I'll try find out where.

After deleting color:FFFFFF; in .fb_blocktable it seems to fix the problem...
