
Before Creating A New Post....READ

Posted by palebluedot - 2007/09/06 05:27

* Make sure there isn't an existing thread with your problem or *related* problem. This is to keep information in the same place for those with similar problems who are looking for answers.

* Check the "Solved Bug Threads" category and see if a solution already exists:

http://www.bestofjoomla.com/component/option,com_fireboard/Itemid,38/func,showcat/catid,76/

* UPGRADE Questions go in the new Upgrade Child Board.

* Once your issue has been resolved, please edit the title and add the word SOLVED at the beginning.
