
"X (time) ago" not fully translated (mes)

Posted by thepisu - 2007/09/06 14:17

File components\com_fireboard\template\default\message.php, end of line 166:

```
time , time() + ($fbConfig * 3600)); ?> ago
```

The result is text like this: "9 Minutis ago", where "Minuti" is the italian word for "Minutes" (I'm pasting translation row), "s" is the way to do plurals, but only in English, and "ago" is untranslated English word....

```
DEFINE('_FB_DATE_MINUTE', 'Minuti');
```

This is a small thing, but can be so annoying... There is the need to add some other strings to translate, like: `_FB_DATE_YEARS`, `_FB_DATE_MONTHS`, `_FB_DATE_WEEKS`, `_FB_DATE_DAYS`, `_FB_DATE_HOURS`, `_FB_DATE_MINUTE` (for plurals), and: `_FB_DATE_AGO` (for "ago" translation).

In attach there's the fix patch. Only for italian Language.

http://www.bestofjoomla.com/images/fbfiles/files/Time_patch_only_Italian.zip

see details here

Is there any work in progress for a general solution on this problem. Pretty annoying in danish to :(- but still - a great component :)

You can:

1. download the italian fix patch
2. delete the italian translation
3. add this code in your language file

```
// Time Bug 1.0.3
```

```
DEFINE('_FB_DATE_YEARS', 'Your translation of Years');  
DEFINE('_FB_DATE_MONTHS', 'Your translation of Months');  
DEFINE('_FB_DATE_WEEKS', 'Your translation of Weeks');  
DEFINE('_FB_DATE_DAYS', 'Your translation of Days');  
DEFINE('_FB_DATE_HOURS', 'Your translation of Hours');  
DEFINE('_FB_DATE_MINUTES', 'Your translation of Minutes');  
DEFINE('_FB_AGO', 'Your translation of ago');
```

4. add this code in administrator/components/com_fireboard/language/english.php

```
// Time Bug 1.0.3
```

```
DEFINE('_FB_DATE_YEARS', 'Years');  
DEFINE('_FB_DATE_MONTHS', 'Months');  
DEFINE('_FB_DATE_WEEKS', 'Weeks');  
DEFINE('_FB_DATE_DAYS', 'Days');
```

```
DEFINE('_FB_DATE_HOURS', 'Hours');
DEFINE('_FB_DATE_MINUTES', 'Minutes');
DEFINE('_FB_AGO', 'ago');
```

The bug will fix

There is any developer reading? Could this be integrated in the next release?
