## Favoured: 0

---

I was trying out v1.0.3 and clicked add favorite. Worked fine. Then delete favorite - worked fine but then it kept coming up with Favoured:0

Didn't want that so I edited template/default/view.php line 379 Begin totalfavorite ORIGINAL

```
setQuery("SELECT COUNT(*) FROM #__fb_favorites where thread='$thread'");
$fb_totalfavorited = $database->loadResult();
echo "
echo _FB_TOTALFAVORITE;
echo $fb_totalfavorited;
echo "
?>
```

NEW -- added if count is less than 0 - don't show

```
setQuery("SELECT COUNT(*) FROM #__fb_favorites where thread='$thread'");
$fb_totalfavorited = $database->loadResult();
if ($total != 0) { // My Hack so only show if count is greater than 0
echo "
echo _FB_TOTALFAVORITE;
echo $fb_totalfavorited;
echo "
} // end of IF statement of My Hack
?>
```
