## Same rank picture for each rank assigned (solved)

Posted by leo9 - 2007/09/07 06:30

---

Greetings and thank you so much for this beautiful forum.

I just upgraded from 1.0.1 to 1.0.3 and installation went smooth.

My only problem is that all my users seem to have the same rank image. (the purple one)

I tried to assign each user to a separate rank but this did not change anything.

What do you think I need to fix?

Hello Palebluedot,

I read this thread already. This is similar to my issue but it is not the same.

I do see the images in my administration "rank management", I am using english, I do not have any conflict with smileys and I made sure all the images in the rank folder are uploaded to /components/com\_fireboard/template/default/images/english/ranks.

Is there something else I am missing in that thread?

Thanks for the quick reply. :)

It would if the pictures were big enough for me to read.

Sorry about that.

Long day for me :laugh:

Go into PHPMyAdmin. Click on jos\_fb\_users in the left hand column and then click "browse" in the right side. It should bring up a list of users. Let me know if all of them are showing the same number in the "ranks" column.

---

The "regular" registered users are showing up with a rank of "0" and the administrator is showing up as "8" and a special rank is showing up as "10"

I would try re-uploading all the new files again and ensuring one didn't get missed. Maybe check the dates on them (server-side) and see if any old ones still lingre. This sounds like something didn't get updated properly in the file side.

YESS!!! THANK YOU!! It worked! :)

I appologize for the lame problem.

No problem it is an easy mistake to make. Glad you figured it out.

Please mark your thread as solved by editing the first post title.

I have the same problem. I have been over the patch files with a fine toothcomb and cannot find any files not uploaded. I wonder if its a file from the full install that I should copy over ?
