## (solved) FTP Help Needed!

Posted by Mien - 2007/09/07 10:27

---

Okey..im trying to upgrade..which of course i suck at! With my ftp program im trying to make the files of 'patch to..' overwrite the remote files..but im getting red errors that i cant overwrite them. Do i need to chmod all fireboard files? i didnt read anything about that! Anyone please..i have a feeling im doing something wrong! :(

-----

Okey..i chmod all fireboard files..which made it work..just not sure how the settings should be when i chmod back.
