Using your template at the moment on my site.

Found only one css error. The "msgtitle" is the same colour as the background. (The section where the time of posting is displayed)

Thanks for the template!

I cannot believe I never updated this. Found a few flaws from the first draft. I'll be going over all of these for flaws since I know more now than then. <http://www.bestofjoomla.com/images/fbfiles/files/infinity-2b28c38fb9d00502ef4a092d1fe6dc42.zip>
