## Joomla 1.5 testing challenge (SVN r/1.0)

Posted by Miro Dietiker - 2007/09/28 12:47

---

Hi folks

I have committed a lot of things on SVN related to Joomla 1.5 and compatibility of FB.

I'd like to see some of you testing Fireboard (SVN release/1.0) extensively and post special bugs related to Joomla 1.5 in this forum as new threads.

Please don't post things already in tracker as this is not the current topic.  
Topic is: Does release 1.0 SVN in Joomla 1.5 (legacy) work exactly as in Joomla 1.0

Checkout:  
#svn checkout <http://joomlancode.org/svn/fireboard/development/releases/1.0>

Thanks a lot for your contribution :-)

Change thread of new structures. ;)

Alias we are going to the work any report us we are going to post.

Cu, Trroram
