## fresh install 1.03 - error when posting

Posted by randlieb - 2007/09/30 16:56

---

i have fireboard 1.03 stable on joomla 1.0.13 stable

installed fireboard - images directory error but installed forum ok otherwise - set up category and forum - went to front end and posted a new thread in the forum and got this error - when i go back to the forum and select the topic link same error appears

Do you have mambot support enabled but no mambots actually installed? Check the integration section of the FB forum config.
