I almost have the same error as you.. Except my sample data was already loaded in.... I was messing around with the Parent Config for it.. now I have this Error.. <http://img525.imageshack.us/img525/7/sampledataerrorjr1.th.jpg>
With this Error.. I can't "Recount Categories Stats" in my Fireboard Controls.. If anyone Knows How to fix this.. Please Help. Thank you.
