
Uploaded image size issue

Posted by schroeder - 2007/10/02 21:52

Hi Everyone,

I need to allow users to upload files with a max size of 2000x2000, 1500kb. So, I set those numbers in the Fireboard->Configuration->Uploads area.

Now, I can upload the file, but when I view the forum, only files with around 650px wide are being displayed. Anything larger gives this:

http://cartographyonline.com/index.php?option=com_fireboard&Itemid=27&func=view&id=7&catid=14

The images displayed are all less than ~650px wide. The large one is there (http://cartographyonline.com/images/fbfiles/images/Fort_St.jpg), but not displaying.

Has anyone seen this before?

Thanks,
A
