Kalispera, den kaneis install alla upload.Me kapoio ftp i joomla xplorer an xrisimopoeis (to sinistw logw ownerships) anebazeis to greek.php sto administrator/components/fireboard/languages (mporei na kanw kapoio la8aki stis lekseis tou path alla 8a to katalabeis).

Gia to template, epiis to anebazeis afou to kaneis unzip sto components/fireboard/template kai apo to back end pigainontas components /fireboard epilegeis to template sou.

Auta, an mperdeuesai kapou ksanarwtas ;)
