
Full Caos on \"NEW! Indicator not Working\"

Posted by GizMo - 2007/10/09 18:02

NEW! indicator not working! i have readed all thread on this argument, i have testes many possible patch... not work, not work again, and not work... NEW! indicator's appear on some cases.. for limited time's and dead again... or php parse error ... caos.

I have joomla 1.0.13, CB 1.1, fireboard 1.0.3 ... all last version of all.

Please make a ufficial, unique working patch for this bug!
