
Hiding the logged IP address from users

Posted by Jellocat - 2007/10/19 13:09

I've been searching through the configuration control panel and all but I cannot find where to hide the logged IP address from users. Can someone help me? Thanks. I'm using 1.0.3.

Drats. I'm in the wrong topic thread, but I can't figure out how to delete this post...

<http://www.danradcliffe.co.uk>

Click fans tab - on the left side bar - click Camden Market - this is the forum.

B)

UPDATE - Completely ignore this post. If I could delete it I would. I figured it out... only ADMINS see the IP address.
