## problem with online members and guests

Posted by pavkatas - 2007/11/01 16:42

---

Hello,  
I am facing the following problem - there seems to be a problem in showing the guests and members at the stats window at my forum. I am attaching a screen shot of that section, I really hope that someone can help me fix that problem.

thanks in advance

Does anyone has an idea how to fix that problem:

Warning: Invalid argument supplied for foreach() in  
D:\xampp\htdocs\test\components\com\_fireboard\template\default\plugin\who\whoisonline.php on line 75

Warning: Invalid argument supplied for foreach() in  
D:\xampp\htdocs\test\components\com\_fireboard\template\default\plugin\who\whoisonline.php on line 102

help will be deeply appreciated.

Do a search for "foreach()".

ok, thanks for the reply,

I did a search in the file whoisonline.php  
I got this  
foreach (\$users as \$user) at line 75

at line 102 I have the same foreach (\$users as \$user)

should I change something?

---

I appreciate your support

You misunderstand. Search the FORUM. You have database issues you need to resolve.
