Hi,

I cant decide if i should convert my SMF-forum (wich is working and is integrated with Joomla and same login) to Fireboard.

My forum today  
Index of site - Foretagande.se - starta eget  
(In swedish though ;) )

What do you think? What are the pros and cons/advantages and disadvantages comparing SMF och Fireboard.

For example - Fireboard and SEO?

/Patrik

Ps. I must say it looks great! :)

Stable=Yes. Buggy=Yes. Native converter=No. If you don't mind a few bugs and the loss of some "advanced" features. By all means make the switch.
