
problem with userlist

Posted by eureka - 2007/11/25 23:30

hi all,
i have a site with 3 columns and when i click the userlist link at the bottom of the forum the body expand and the column on the right go down under the body :S i think there is a problem in the style of the userlist div container someone can help me?
thanks in advance

Just fixed this problem myself a couple of days ago. Heres the fix, its in the text file. Can't post code on here for some strange reason as it disapears. http://www.bestofjoomla.com/images/fbfiles/files/Things_fixed.txt
