Masha Allah,

Thank you all for this; it's very good translation

SALAM ALIKOUM

i am new here, and i have questions.....
how i can install this file

Re:fireboard 1.0.3 arabic file is ready

Posted by samozin - 2008/07/12 02:27

yah how to install the arabic language?

Re:fireboard 1.0.3 arabic file is ready

Posted by m_abdelfattah - 2008/08/02 16:43

I attached here the translation file but UTF-8 Encoded, cause the previous one was WINDOWS-1256.

and about how to install this:
extract arabic_utf.zip & upload arabic_utf.php to :
/administrator/components/com_fireboard/language/

rename the old english.php to original_english.php
then rename arabic_utf.php to english.php

Enjoy it ;) http://www.bestofjoomla.com/images/fbfiles/files/arabic_utf.zip

Salaam,

A lot of fields are missing. Are you sure this is the latest version. I can help if the file is in the arabic joomla wiki.
<http://www.arjoomla.org/wiki/addons:fireboard:index>

Re:fireboard 1.0.3 arabic file is ready

Posted by grinchy - 2008/08/11 23:49

Please check the date on the thread. It is 8 months old. Probably was for 1.0.3.

Re:fireboard 1.0.3 arabic file is ready

Posted by emakki - 2008/08/13 00:39

Yeah I thought so. Mostly, language changes are rare. So, I may use this file with the one in the wiki and compare them using Beyond Compare to get the missing fields and fill what I can if any are left.

Thanks for your reply thogh.
