
JA Pariiti

Posted by AainaA - 2007/12/22 00:04

This is truly one of the best templates I've seen with its pastel shades, I wonder what the designers were thinking when they produced this theme - anyone from that company can enlighten me on this, or any of you using this theme on your site?

Joomlart, in my opinion, makes some of the best visual templates. I am currently using this template on a new client build.

It's really lovely!
good design for designer's site! :P
