## I can't see \"Post\" button (New install)

Posted by hodam - 2008/01/06 00:01

---

Hi, I'm new to FB. I just installed it and it integrated just fine. The only problem is, I can't post any forums. I can't see the "Post" "Reply" buttons at all.

Please help?

Thanks  
Habte

It is because the first forum is a parent category.  
You have to create another forum under this forum and your problem will be solved.

Perfect

Thanks for that I have spent 2 evenings trying to sort this out, only just thought about trying the forum.

Thanks very much
