
Error while creating new category

Posted by Joraus - 2007/12/03 11:13

Hi,

I got this error while trying to add new category... How can I fix this?

fbforum:Ã«Ã»store failed />Unknown column 'class_sfx'
in 'field list' SQL=INSERT INTO jos_fb_categories

Joomla 1.0.13

Fireboard 1.0.3 Stable (data from -> SMF to Fireboard conversion)

probably you have made an upgrade and this field in your fb_category table is missin, look at the upgrade.sql inside the package and put back the missing fields.

class_sfx

Hi thanks for the quick response. I am a newbie to Joomla, so forgive me if my questions are a bit dumb. Where do i go to view this sql file and what are the files i need to replace?

Hi,

thanks, that helped! There was two columns missing on my 'jos_fb_categories'

table, `headerdesc` and `class_sfx`

Here's fields on my jos_fb_categories ...

```
jos_fb_categories
Field      Type      Null Default
id         int(11)   No
parent    int(11)   Yes  0
name      tinytext  Yes  NULL
cat_emoticon tinyint(4) No  0
locked    tinyint(4) No  0
alert_admin tinyint(4) No  0
moderated tinyint(4) No  0
moderators varchar(15) Yes  NULL
pub_access tinyint(4) Yes  1
pub_recurse tinyint(4) Yes  1
admin_access tinyint(4) Yes  0
admin_recurse tinyint(4) Yes  1
ordering    tinyint(4) No  0
future2     int(11)   Yes  0
published   tinyint(4) No  0
checked_out tinyint(4) No  0
checked_out_time datetime No  0000-00-00 00:00:00
review      tinyint(4) No  0
hits        int(11)   No  0
description text      No
id_last_msg int(10)   No  0
time_last_msg int(11)   No  0
numTopics   mediumint(8) No  0
numPosts    mediumint(8) No  0
class_sfx   varchar(20) No
headerdesc  text      No
```
