
weird error when upgrad FB_DT_DATETIME_FMT ??????

Posted by b9sinner - 2008/01/27 22:52

I just upgrade to 1.04 from 03 , and i got this error with some previous posts. but not all post . it just wont show time and date on some post in forum frontpage, it just show

_FB_DT_DATETIME_FMT were date and time should show, how do i fix this=?

my forum is online and i dont want my members to see this

i have searched for words as date, time, error with date time , date time, _FB_DT_DATETIME_FMT , how to fix error with date time

and i cant really understand categories in this forum. its so different from other forum layout.

This answer doesn't help, it is a complete other topic.

Re:weird error when upgrad FB_DT_DATETIME_FMT ???

It was one search result. You need to find the others for yourself. I'm not a waiter.

Actually the fix is the same.

SO to repeat myself, EDIT...THE...LANGUAGE...FILE.

Just because it doesn't say EXACTLY what your error does you have to adapt the fix to your circumstance.

Actually, I dont think this problem is the language file. I have the same problem. This should reply a time and date, right?

leontb:
Did you figure it out?

grumblemarc:
Please don't answer me, if you can't do it in a nice way.

I fond this solution:
http://www.bestofjoomla.com/component/option,com_fireboard/Itemid,38/func,view/id,42857/catid,74/
But do you really need to change core to make it work?

Regards
Fohlin
