## Rankings on date

Posted by MSFREAK - 2008/02/09 20:32

---

Hi,

Is it possible to get the rankings on date?

Now you have rankings on amount of posts that you make, but sometimes people make useless or random posts just to gain a higher rank on the forum.

So I wanted to make it so that you get a new ranking for example when you're on the site for one month, and if you are on for 2 months you gain a higher ranking. This will also keep the site less boring because the longer you're on the site, the higher your ranking.

The problem is that i dont know any languages next to html and css lol :blush:

Can somebody make this or can it be made in the new release?

Big thanks :laugh:

Actually there quite a few things that can be done, but do you want a member that doesn't post anything to become higher ranked than someone who joins, posts and is a good contributor to your forum?

A What you may consider is to add points to your forum so that each post gets X # of points and Karma gives even more. i.e for each post, they get 2 points and for each karma, they get 5 points. So the useless posters will get 2 points for each good post and for those that don't post often who get karma because of good posts, they gain the points that much faster.

Just a though to consider, and if you are interested in this, I should have everything ready by next week. You are welcome to my files.

That is super awesome and an even better idea!

Could you make this?

I'd love to implant your idea into my site.

Thank you very much :D

I actually already have some of it running on my site, I'm still working on the Karma portion. I will also be adding points for every time the log in.

Hi Hazzaa,

Looking forward for something like what you have suggested. Pls advice where can I download it.

Thank you very much
