
Recover Deleted Forum??

Posted by CaptJohn - 2008/03/07 04:40

I inadvertently deleted an entire forum containing about 20 topics and 200+ postings. The JoomlaBoard Administration does not have a recovery function and the Joomla Trash Manager does not contain this forum item (lots of other trash there though..).

Is the content still in a file somewhere? Is there a data recovery mechanism in JoomlaBoard?

...sound of flashing knives in the night... HELP!

Hope you have a backup database somewhere.
