## Template installation issue.

Posted by bleeps - 2007/05/02 03:34

---

Hi there,

I've attempted to upload and install a couple of templates, and each time I get the same message when I try and view from the front end:

pat-Error Could not load templates from header.html.

Does anyone have any insight into this problem?

Thanks!

You need to unzip the template archive file, the template folder is under the main archive. Either that, or just pull the files into the top folder for that template on your files.
