
Solved: Unprivileged Admins and Moderators?

Posted by cwk - 2008/03/13 08:21

I have installed Fireboard 1.0.4 on Joomla 1.5.1 and CB 1.1. I want to appoint moderators and administrators for the forum without giving away the keys to the entire store. But users who are set as Moderator or Administrator in the Fireboard config do not see the administrative tags on posted messages. What am I missing?

Please 'n' thank you!

Chris

It's a two-step process. Just scroll down a bit and add the forums where the new Moderator can moderate. Simple once you spot the extra checkbox. Thanks to dodgybob.
