
Can I add a header image?

Posted by thenostrand - 2007/05/03 06:36

Can somebody help me with this? I want to add an image over the forum (inside the right column). This would be like a image that says Forum.

Here is a running test of my forum http://www.showtimejiujitsu.com/joomla/index.php?option=com_fireboard&Itemid=34

Also, If anybody knows how i can make that right column a little wider, and the left one a bit smaller, PLEASE HELP. I would greatly appreciate any input.

Thanks in advance,
eric
