
UFTT v5 Released!

Posted by WastedZombie - 2008/03/24 13:44

UFTT stands for "Ultimate Forum Top Ten". This program will allow you to display the most recent forum posts either by newest message or newest message by category, or newest message by topic. You can decide everything that gets shown to your members/vistors, including the order in which things get shown. Tons of additional features.

Works with or without Community Builder

Works with Simpleboard/Joomlaboard/Fireboard

You can find it here: <http://wastedzombie.com>

Heya Zombie,

Just wondering if your mod works with j1.5?

Having some errors show up in the module, as seen in this thread.

Any ideas?
