
Possible bug fix for quick boxes

Posted by bennieblanco - 2008/03/27 13:46

I just tested latest mootools.js , 2 other version of jQuery.js and the jQuery from FB 1.0.4

all running simuntaniosly and called in my template index.php.

The quick reply boxes will stay hidden if you add this to your forum.css

```
.switchcontent{display:none;}
```
