## smile.class.php ~ 1.03 to 1.04 ~ video script

Posted by nmcleod - 2008/03/29 17:50

---

Hello there

I just upgraded from 1.03 to 1.04 as I was getting some strange bugs appearing like the Blink Smiley turning into strange text and a few other odd items. Anyhow, I had included the script below in the smile.class.php file so when it came to adding this into the smile.class.php file for 1.04 I noticed some major changes to it, probably reduced to 30% or so of the original size and no place to insert the script. :dry:

Has anyone got any ideas where such an important and clever piece of script can now be inserted? B)

Thanks in advance for any and all help.

Cheers,

Neil

```
//youtube
```

```
$fb_message_txt = preg_replace("/^(.*?)\vsi", "", $fb_message_txt);
```

```
// Myvideo
```

```
$fb_message_txt = preg_replace("/^(.*?)\vsi", "", $fb_message_txt);
```

```
// Google Video
```

```
$fb_message_txt = preg_replace("/^(.*?)\vsi", "", $fb_message_txt);
```

```
// Clipfish
```

```
$fb_message_txt = preg_replace("/^(.*?)\vsi", "", $fb_message_txt);
```
