---

First, i fell i must to wish you good luck !

Someone knows how to modify the header part of fireboard, to make it like vbulletin.

please

thanks for help :laugh: ! [http://www.bestofjoomla.com/components/com\\_fireboard/uploaded/images/Sans\\_titre\\_5-24068cec4670f02eb89a11cd171e6dae.gif](http://www.bestofjoomla.com/components/com_fireboard/uploaded/images/Sans_titre_5-24068cec4670f02eb89a11cd171e6dae.gif)

Himm sorry i didn't see your images.

Go to fireboard admin. set profile box show "no".

Next

play on fb\_pathway.php and it is good thing add module position.

Than you can asign your joomla login module on your template.

Note: Don't use default template. you can create new one. like "com\_fireboard/template/my\_skin" then copy fb\_pathway.php to your skin folder.

your skin folder will have:

fb\_pathway.php

footer.html

header.html

forum.css

template\_img\_thumbnail.png

template\_thumbnail.png

images/

B)

Thank you very much, i'll try to do this.

I fix the problem, and i make an html exemple  
my problem is "where to edit the code to get the wish's result"

exemple de style

Himm sorry i didn't see your images.

Go tofireboard admin. set profile box show "no".

I don't want to show how stupid I am, but I can't find this option anywhere!!!! I'd either like to turn off that profile box, or move it to the bottom of the page - I don't mind which, although I imagine turning it off, once I find this option, will be a lot easier...

Thanks in advance...

i have the same problem! in my project the profilebox is superfluous!

Go tofireboard admin. set profile box show "no".
