
Access to certain board only to certain rank group

Posted by Lotti - 2008/03/30 04:17

I want to create a board that can be see only to certain users that have more of (ie) 500 posts; like a board that can be see only to a certain rank group (post based). It's possible? Thanks

Nothing? A board ranks group permissions?

No. I need simple to set rank level groups users to view/use a single forum or not. Not a selected username.

If you read through that post I gave you, you will see that after updating the files as are in the ZIP file, you will be able to set forums as "restricted" then assign certain members to view those forums.

I don't think there is a way to say if you are a certain rank then you get to see certain forums...
