
new posts are not assigned ID or Thread numbers

Posted by PatFinegan - 2008/04/09 03:58

Attached are snippets of my fb_messages and fb_messages_text tables from <http://deutschtreffen.de>.

Notice that the most recent entries have not been assigned an ID or Thread number by Fireboard 1.04. To get them to show correctly, I had to download the table and enter them by hand. Any idea what I am doing wrong?
