## Recent Discussions in BoJ Forum

Posted by mcrollo - 2008/04/22 14:43

---

The Fireboard Forum on this site doesn't show the latest posts under "Recent Discussions" Tab. It shows the latest post "only" if the first post is new. Is that correct?

Greetings  
Mc

Of course ...I have been talking about this more then only 1x time on BOJ, you defenately don't see recent discussions.

You see recent posts only in discussions that are one week old, if someone replies to discussion that is older then 1 week or whatever the latestx setting, this reply will not show up in recent discussions tab!!

interesting, I add it to my todo list to check it.

Many thanks!
