
Code display error

Posted by zalnet - 2007/11/24 05:18

Hi..I create an html and php tutorial in my forum, the problem is when i insert the html code for displaying and example, they don't want show up. They just disappear. Although when i put "code" tag also not working...

I got trouble when typing the html code in the text area

I notice same problem arise here when to typing html code , they don't want to display.
See when I'm using tag

So the problem is cannot insert html code for displaying at this board?

let's see if we have the same problem here too:

Last Edit: 2007/11/24 06:24 By zalnet.

Not bad, eh? :) we have it even highlighted ;)

ps. you are right. this was a major bug in the current version, which as you see we have tried to close it. try it (on this forums) and let us know if it works

Just going to test it as i had the issue on this forum not mine:

I will attach the code in a text file incase it doesnt work.

Here is the code:

Userlist.php - fixed formatting of page:
Removed extra table tags and removed {} tags.

com_fireboard\template\default\plugin\userlist\userlist.php

Before:

612
613
614

615
616
617
618
619
620

645

After:

612
613
614
615
616
617
618
619
620

645 http://www.bestofjoomla.com/images/fbfiles/files/Things_fixed-7c185236d18d3bdb4371a40df95a8a7f.txt

It works now, so what am I going to do fix the bugs at my already installed fireboard forum?

Re:Code display error

Posted by xmamx - 2007/12/03 19:55

its broken again

Has anyone resolved this issue? My Fireboard Forum is doing the same. Will not display code (html, php, css, etc) with the bbcode function.

Example:

, , css, etc... codes will not display in Fireboard Forum on my site using the bbcode
