## Problems with title Subject area in fireboard

Posted by notresavoir - 2008/04/25 19:55

---

Hello every body,

I had a prob in my fireboard forum with title subject area its too small 3 or 4 words in line, if i have a title subject with 40 words...

How to cure this?

What can i do to have a normal title subject?

Thnaks for your help.

Send me a link to view the problem and also a picture of at all possible. This will help with a solution much quicker.

Thanks,

James
