
SOLVED! Register Link Not Working! - Please Help

Posted by cgermon - 2007/12/19 04:24

Hi there,

I have been using Fireboard for quiet some time and I am now using vthe latest version 1.0.3 with community builder.

Only when a member pointed it out to me I noticed that when they click on the register button from within Fireboard they are getting the error "You are not authorized to view this resource, you need to login"

I notice the only problem with the link it sends you to is that it ads "Itemid,90/" to the end which is causing the problem.

Has anyone had this problem be for or able to tell me what might be causing this?

Thanks!

Check the forums in the Community Builder threads. This has been brought up before and solutions offered. It appears to be a configuration issue , not a bug or error with FB.

This is great news.... however that link takes me to an empty page. Could someone post an updated link please?

Thank you!

In searching the forum I've run into these two posts which seem to be on the right track.

http://www.bestofjoomla.com/component/option,com_fireboard/Itemid,38/func,view/catid,76/id,26263/

http://www.bestofjoomla.com/index.php?option=com_fireboard&Itemid=38&func=view&catid=9&id=3464
