## Fireboard 1.1.X Info-upgrading-status

Posted by blasiman1 - 2008/05/23 17:32

---

Will the upgrade from FB version 1.0.4 to FB version 1.1.x be complex or smooth? I am trying to determine if I should wait or use the current verison of FB.

Where can I find a sticky post or place to view the progress updates for FB 1.1.x? The post on the home page about FB 1.1 has not been update on a month. It would be nice to have a status update. ;)

Is there a way that people can donate to the project? Would donating to the FB project speed up the releases?

iosoft,

Are you working on the 1.1 version? If you are, how can we donate to the project? Can you provide a status update?

I know that I can donate the Best of Joomla! with the link at the bottom of the page. I just want to insure that the donation goes to the JB 1.1 and not template development.
