
Where can I find templates?

Posted by doctorlife - 2008/05/26 19:39

Hi to all,

I want put in evidence this thread <http://forum.joomla.org/viewtopic.php?f=42&t=124576&p=1306891#p1306891>

Can be a feature available here on BestOfJoomla ?

This is what I mean:

"we build joomla sites, for us have a joomla templates library (free and commecial) to import (like RSS for example) into our portal as propouse for our customers where choose their templates should be really a very good thing."

Is there a way to "import"/show bestofjoomla db templates on our forum (may be trough RSS) ?

I think can be a very useful feature for a lot of us...
