
numinu rejuvenated nvac (locked issue)

Posted by mbb - 2008/05/31 20:48

hope i'm not in wrong section..

i have numinu rejuvenated nvac template installed in my fireboard 1.0.4 but the lock is not working.. even i have tried to lock it but still not locked.

u can look on my post.php and view.php

i have tried some patch but didn't working... <http://www.bestofjoomla.com/images/fbfiles/files/myfile.zip>

Numinu NVAC is not a supported BOJ FireBoard template. Numinu in and of itself was nt supported as it never made it out of the alpha stage and has been superceded by the Default_Ex template. Did you try the fix outlined here? http://www.bestofjoomla.com/component/option,com_fireboard/Itemid,38/func,view/id,25740/catid,73/#25740

okay i found the solution,

delete post.php

find \$topicID in view.php and change this

\$topicID

to

\$_lockTopicID
