
smiley icons & navigation tabs

Posted by TCF - 2008/06/28 00:11

two questions, firstly, I cannot find the Smilies that on this particular forum, I've had them before, but I come remember where I got them, I want to replace the ones that are on my site for a moment.

Second question, when you install the default ex template that various tabs at the top of the forum, FB_all_discussions etc, why do I go to edit the text on these?
