## Single apostrophe breaks module

Posted by Uncle Buck - 2007/05/09 00:50

---

If you have a single apostrophe in a subject (like saying what's instead of what is) then the latest module produces an error on the page saying "....expected )".

All I have done at the moment is to remove the single apostrophes from the subjects, however, I was wondering if anyone has a solution for this?

Colin.
